

Hello! My name is Sara, I'm a 28 y.o. creative and resourceful thinker!

I define myself as a curious individual that enjoys observing my surroundings and noticing details. *For me design is not just providing a solution, it is about improving everyday life through creating an experience.* Design inspires me and makes me see things differently. I come from a strong European education and I am now based in Melbourne to include some Australian design flair in my knowledge, an important key to grow as a designer.

I have a keen interest in Graphic, Communication, Exhibit Design and, of course, all creative arts! I would love to work in a collaborative work environment. Work experience for me seems to be an excellent opportunity to further my career. As you can see in my portfolio, I have a multidisciplinary preparation and would love to broaden my skills to challenge myself.
